R&M ENGINEERS AND SERVICES PVT. LTD.

Our Vision

The Company continues to move forward and become the leading Engineering and Construction firm in India and eventually the region, while delivering projects that consistently meet international standards.

Our Mission

With a well-defined direction in place, the path to realizing our Vision is based on fundamental drivers, instrumental in achieving our goals. Our Mission:

To undertake the engineering and construction business with a focus on becoming the leader in product costing while building excellence in every aspect to meet customers/clients stringent requirements regarding quality, on-time completion, safety and environmental concerns

- To develop an effective management that stresses productivity, perpetual development of the organization, and instilling work ethics in all personnel.
- To build value for the organization in order to become a unique and distinct firm.
- To remain focused on controlled organizational growth and recognizing those who contribute to this growth.

Corporate Values

To further develop our corporate strengths we have established a corporate mandate to maintain strong core values that truly reflect the company's philosophy.

Having stood the test of time, transparency and good corporate governance remain our top agenda. At R&M Engineers and Services (P) Ltd,

the principles supporting this philosophy are permanently ingrained in our corporate values.

1. People

At R&M Engineers and Services (P) Ltd, we recognize the value of our people and continually strive to develop human resources. We recruit knowledgeable and highly skilled professionals while providing opportunities in training and self-development.

2. Commitment

R&M Engineers and Services (P) Ltd's firm commitment to deliver quality projects and services has resulted in the company's acceptance as one of the leading engineering and construction firms in the region. Our well-defined understanding of client specifications and their requirement for a timely delivery, has served as the principal foundation of our acceptance as an industrial leader.

3. Integrity

Over the year, we have gained a reputation for integrity and trust from our clients. Our commitment and drive for success has built a solid base of satisfied clients who continue to use our services time and again. R&M Engineers and Services (P) Ltd's integrity speaks for itself and a legacy of past projects has ensured continued success while opening doors for future opportunities.

4. Adaptability & Flexibility

Understanding our clients has given us the opportunity to adopt various

VEE'S ENGINEERS
INSTRUMENT ENGINEERS & CONTRACTORS

R&M ENGINEERS AND SERVICES PVT. LTD.

engineering requirements to meet project demand. This includes the flexibility to adjust construction specifications when necessary. All of our projects are custom built and tailored to meet specific requirements; this adaptability and flexibility are key factors that have encouraged our clients to return to R&M Engineers and Services (P) Ltd, for their most important projects.

5. Continuous Learning

At R&M Engineers and Services (P) Ltd, learning is ongoing. We believe in integrating the latest in construction and engineering technology to ensure that our projects are not compromised by disruption or obsolescence. Our IT and communications network has provide the backbone support necessary to move us forward into 21st century. This technology is incorporated into all projects with a support system that is advanced and efficient.

6. Trust

With decades of construction and engineering expertise under our belt, R&M Engineers and Services (P) Ltd, has earned the trust and support of clients. With numerous industry awards and recognition from both customers and peers, we are confident in our ability to deliver superior products in accordance with customer requirement.

7. Satisfaction

At R&M Engineers and Services (P) Ltd, our work is never complete without final nod of approval from our clients. Construction and engineering work is

processed through stringent quality control measures and only after tedious inspection and tests is the project handed over to the client. We are committed to our clients' approval and our work is not complete until all specification have been met.

Famed Awards

Highly potential employee brings high quality and efficiency projects. These also support Sino-Thai's reputation amongst customers both government and private sectors. Sino - Thai delivers potential projects, therefore, there are many famed awards presented at the moment. The potential projects strongly reflects its quality that meets the international standards. In addition, the potential projects cause successfully safety record through all the years, and this is emphasized that Sino-Thai becomes the leading Engineering and Construction firm in India.

The company believed that the perfect success must come along with the safety of the employees and all participating people. Safety is not only a law or regulation to be abided by but it is also a matter of righteousness and humanity, a right , which all co-workers must receive, thus , the safety is considered an valuable thing of the organization to be practiced and continuously perpetuated. The executives and all staffs will be assigned to be responsible for the safety in accordance with their respective part of works and that in no event shall safety be considered an additional part of the works but the safety must be the work to be fulfilled and, above all, must come first.

VEE'S ENGINEERS
INSTRUMENT ENGINEERS & CONTRACTORS

R&M ENGINEERS AND SERVICES PVT. LTD.

Safety Policy:

The company has set forth safety policy on all staffs as follows:-

1. The company shall enhance and create work safety.
2. The company considers that all work performers are valuable resources of the company; hence, the safety of the work performers is the important policy of the company.
3. The company shall render support in order to create work safety and provide equipments and appliances with safety condition including condition and methods in operation. The company also enhances acknowledgment and motivates work performers on safety first.
4. The company has prescribed its policy that there shall be a Health Safety and Environmental Committee to map out work and project planning in connection with the safety as well as carrying out the management and development the project plan to efficient success.
5. The company has prescribed it a policy that all superiors have the duties and responsibilities on the matter of the work safety of their subordinates in strict compliance with safety Rules and Regulations prescribed by the company.

6. The company has prescribed it as a policy that all work performers must have the duties and responsibilities for their own work safety as well as of their co-workers in strict compliance with safety Rules and Regulations prescribed by the company.

Key elements of safety plan:

- Company health, safety and environmental policies
- Safety training program for all staff positions
- New employee orientation and training program
- Safety promotion and incentive program
- Job safety analysis (JSA) program for all major and high risk works
- Accident investigation and reporting system with follow up corrective measures
- Accident statistics and analysis
- Preparing work method statement and accident prevention method
- Safety audit and inspection

According to the prevention operation by various preventive measures, the company has foreseen the safety in Process, which is must thing to do to create sustainable work with safety. The company supervises all levels of the employees by holding regular safety talks at job sites in order to provide knowledge and comprehension in performing their work relating to health , safety and environmental condition both from their own sites and other sites.
